Nathan Francis Ripaldi

Executive Capability Statement | Procurement Operations & Supply Chain
Nathan.F.Ripaldi@gmail.com | 415/265-4513 | Santa Clarita, CA

Executive Value Proposition

Procurement operations and supply-chain executive with 18 years leading acquisition, subcontract, sourcing, and supplier execution across Department of Energy national laboratories, aerospace, defense, hypersonics, electronic warfare, and classified programs. Currently leads 4 managers and approximately 35 professionals at SLAC National Accelerator Laboratory across commodities, complex services, construction, high-value scientific equipment, small business, training, and compliance. Known for pairing AI-enabled tools with rigorous human judgment to convert complex requirements into disciplined operating systems that accelerate decisions, strengthen accountability, and improve mission, cost, schedule, supplier, and audit outcomes.

Core Capabilities

- **Enterprise Procurement Leadership:** Operating-model design, portfolio governance, workload prioritization, KPI management, risk escalation, and cross-functional execution
- **Federal & Defense Acquisition:** FAR, DEAR, DFARS, ITAR, CPSR discipline, proposal adequacy, responsibility, source selection, and audit-ready procurement files
- **Complex Contracting & Price/Cost:** FFP, CPIF, CPFF, CPAF, T&M, LOE, BOA, and OTA strategies; price/cost analysis, learning curves, escalation, wrap rates, and negotiation planning
- **Supplier Strategy & Resilience:** Strategic sourcing, competition, supplier recovery, DMSMS and obsolescence mitigation, tariff/HTS governance, and critical-supplier risk management
- **Program & Production Execution:** Capture through development and production, schedule integration, control-account management, material performance, and executive issue resolution
- **Workforce & Digital Transformation:** Manager and talent development, cross-training, succession planning, standardized playbooks, analytics, and responsible AI adoption across acquisition teams

AI-Enabled Acquisition Leadership

- **AI-Accelerated Source Selection:** Partnered with Claude (Anthropic) to consolidate a multi-document source-selection suite into an audit-ready revision that adds Quality to best-value tradeoff scoring while keeping the Procurement Specialist in control of the award
- **Human-in-the-Loop Verification:** AI drafts and analyzes; the professional decides. Every output receives an independent review against source documents and FAR/DEAR/DFARS authority before release
- **Policy-to-Practice Playbooks:** Converts regulation and policy into reusable forms, checklists, and training aligned to CPSR, DCMA, and DCAA expectations
- **Workflow Automation:** Built scheduled AI workflows (inbox triage with drafted replies, recurring all-hands deck refreshes, turnover reports) that cut administrative load and preserve continuity
- **Responsible AI Governance:** Clean-room discipline: public-authority sourcing, no proprietary content in AI tools, credentials kept out of prompts, and sandboxed testing

Evidence of Impact

- **Scale & Leadership:** Led organizations of 15 to 35 professionals across California, Georgia, and Texas; managed major subcontract portfolios exceeding $3B and design-and-development activity exceeding $1B
- **Mission Portfolio:** Strategic deterrence, F-35, X-59, Tactical Boost Glide, ARRW/AGM-183A, electronic warfare, advanced scientific infrastructure, and classified national-security programs
- **Acquisition Transformation:** Modernizing governance, tiered reviews, technical evaluation, price/cost analysis, supplier-risk visibility, closeout execution, workforce development, and cross-functional accountability at SLAC.
- **Government & Quality Assurance:** Trusted interface with DCMA, DCAA, and program offices; supported six CPSR cycles and three AS9100 audits with a focus on defensible, audit-ready execution.
- **Credentials:** Active Top Secret clearance; Control Account Manager certified; Lean Six Sigma Green Belt; M.S., Taxation; B.S., Legal Studies.
- **Leadership Brand:** Mission focused, customer centered, analytically rigorous, and committed to cultures where urgency, accountability, psychological safety, and disciplined execution reinforce one another.
